Others

-

**6.4 Does your company have a baseline for GHG reporting?**

No

**6.4.2 Please explain why your company does not have an existing baseline, and if it is planning to develop a baseline for GHG reporting?**

The Group will continue to monitor our emissions and energy consumption linked to palm oil production as we work to minimise our emissions. As part of our efforts to provide greater transparency pertaining to our carbon footprint, we implemented a more complete GHG inventory by tracking and monitoring additional emission sources. We have been utilising RSPO PalmGHG version 4.0.1. This will aid us in completing our baseline studies as well as identification and estimation of the potential sources of emission and sinks of carbon from our operations, including mitigation plan in minimising net GHG emissions. We will develop target baseline in our next report in 2020.
