5. Actions for Next Reporting Period

5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

Carrefour achieved its target to have 100% of palm oil used in its products RSPO certified or covered by RSPO credits in 2015. Our ambition is to ensure that the palm oil we use comes from sources that do not contribute to deforestation. Carrefour aims at increasing the part of physical traceable supply chains in our global volumes and progressively eliminate the use of book and claim certificates. Our objective is to reach 100% of segregated or mass balance at the end of 2020 for Carrefour Group. In 2020, as a member of the Consumer Goods Forum, we contributed in the coalition of action Palm oil roadmap's design and will be driving forward the sustainable palm oil agenda collectively with key actors. In fact, making sure the palm oil we use is certified is part of our priority KPI we designed to monitor our non financial performance. In 2019 we created the "CSR and food transition index" to better pilot our progresses towards our CSR targets. This index is built on 4 axes: products, stores, clients and employees. The product axe is composed of a sustainable forest pillar where our progress against reaching 100% traceable certified RSPO palm oil is measured: <https://www.carrefour.com/en/newsroom/new-csr-and-food-transition-index-drive-performances>. Moreover, we are planning to join the POTC (Palm Oil Transparency Coalition) to move our RSPO agenda forward with key retailers.
