4. Trademark Use

4.1 Does your company use or plan to use the RSPO Trademark in own-brand products?
No
4.3 Please explain why your company does not plan to use the RSPO Trademark in own-brand products
Challenging reputation of palm oil
Confusion among end-consumers
Costs of changing labels
Difficulty of applying for RSPO Trademark
Lack of customer demand
✓ Limited label space
Low consumer awareness
Lowusage of palm oil
Risk of supply disruption
• Others
Others
We have no plans to use the RSPO Trademark on our packaging. This is because using the RSPO Trademark on the packaging at a legible size would be a challenge due to space availability. Instead "Sustainable Palm" is stated in the ingredients declaration for Clover, Vitalite, Utterly Butterly and Willow \square On packs of Clover we also state: "Clover is committed to Sustainable Palm Oil. For more information, please visit www.uk.saputo.com" \square On packs of Vitalite we also state "Sustainable Palm Oil" on side of pack Our only format that does not refer to sustainable palm oil are our 2kg tubs and we will amend these on our next artwork change in 2020. We do use the RSPO Trademark on our website www.uk.saputo.com

5. Actions for Next Reporting Period

5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

We already include, and plan to continue including, our sustainable palm commitments in our Corporate Responsibility pledges (Pledge #10) and publish these on our website https://uk.saputo.com/our-promise/sustainable-palm-oil/ We now include "sustainable palm oil" statements on all our packaging where palm oil is used (Clover, Vitalite, Utterly Butterly and Willow) (with plans in place to update 2kg artworks on 2020 but these are a very small proportion of our sales). We continue to promote through regular presentations our commitment to sustainable palm oil internally to employees and to our customers. Our Careline team are fully briefed and continue to inform consumers using our 'Palm Oil Statement' and 'Palm Oil FAQs' As part of our efforts to promote the use of sustainable palm oil, we have partnered with Chester Zoo to fund the Kinabatangan Orangutan Conservation Programme in Borneo, Indonesia which helps protect critically endangered Bornean orangutans. Chester Zoo works with a number of leading organisations, including RSPO, to transform the palm oil industry into one that is fully sustainable. They undertake valuable conservation work in south-east Asia to protect species threatened by extinction. Our partnership also enables us to raise awareness of the benefits of using sustainable palm oil with employees, retail customers and consumers.

6. Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil (RSPO) approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared

Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules or email the ACOP team at acop@rspo.org

6.7.2 How is your company supporting them?

✓ Improved Smallholder livelihoods

Roughly 40% of the palm oil that we source originates from Latin America where the palm oil industry is less developed than in South-East Asia. Together with our palm oil supplier we are determined that as the industry grows, it does so in a sustainable way. Our commitment to creating a completely sustainable palm oil industry is reflected in our sponsorship of Project Mariposa. This programme enables growers to manage their palm trees sustainably, supporting thousands of families on their path to develop, improve and maintain their sustainable production practices. Our work funds training programmes for smallholder farmers in Honduras, enabling them to progress towards full RSPO certification.

In previous years we encountered issues of low availability of SG palm oil, particularly palm kernel. To resolve this we sourced MB instead. Media coverage on palm oil continues which generates regular, albeit small numbers of enquiries to our Consumer Careline. We use this as an opportunity to educate and inform consumers of our position that there is no more sustainable solution than sustainable palm oil. We have also engaged with the WWF and Chester Zoo to ensure that our stances and communications to consumers are aligned. In terms of increasing our sustainability from Mass Balance to Fully Segregated, we have been
