Using sustainable palm oil is a prerequisite of EDEKA's own brand products containing palm oil. It is one of the committed aims we agreed upon with our Partner for Sustainability, the WWF. To meet this requirement, our individual product specifications have been adapted, allowing our suppliers only to use sustainable palm oil. Furthermore, EDEKA is a full member of the German Forum for Sustainable Palm Oil (FONAP). EDEKA's aim is to achieve as soon as possible 100% segregated palm oil in our private label products. Therefore we are currently engaged in an FONAP working group to develop feasible goals in a step-by-step approach. This includes the inclusion of additional requirements, which are as follows: - No illegal FFBS - Disclosure of GHG gas emissions - No peat-land and HCV land-use change - No use of critical pesticides e.g. WHO class 1 a & b Furthermore we want to start a smallholder Project within our Membership in FONAP. In addition, EDEKA has set itself the target of achieving at least 30 percent of the palm oil used in EDEKA own products by 2020, which are in line with the verification of the Palm Oil Innovation Group (POIG)

6. Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil (RSPO) approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to <https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules> or email the ACOP team at acop@rspo.org
