Magnakron engages with market players to promote sustainable product development. We have started to incorporate RSPO with other sustainability programs we are active in ranging from other feedstocks, to employment programs creating sustainable work and future assurance of sustainable operations. For Palm products, RSPO remains an integral part of this discussion. Further, we try our best to assist with customer questions on RSPO and refer them to the necessary RSPO channels when it is something they need more in depth information on.

#### 5. Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil (RSPO) approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules or email the ACOP team at acop@rspo.org
