6. Challenges

6.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others

Others

Most critical challenge is the high premium of RSPO-certified product that scare the buyers. Come on \$30/MT of SG CPO or MB CPKO and \$50 SG CPKO is astonishing. Has anyone drill into the premium structure to check and verify whether the producers or traders in between are jacking up the premium. What is the basis of high premium? To cover the high expenses in certification or just for sole profit? you have to make sustainable palm oil affordable to the consumers otherwise prepare to bite the bullet and stop dreaming to "make sustainable palm oil a norm" because it will never happen.

6.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others

Others

Drill down into premium structure, understand the basis and bring down the premium. Make it affordable to the consumers to improve the market share.
