Extraction of Crude palm oil (CPO), Palm kernel oil (PKO) and Palm kernel expeller (PKE). We also generate electrical energy from biomass (fiber and palm oil mill effluents) that we use in our mill and market it to an electrical distribution company.

### 2. Palm Oil and Certified Sustainable Palm Oil Consumption

*Information in Section 2 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil and palm oil products consumed, to enable the RSPO to accurately calculate uptake on a member, sector and total level. ACOP reports without reported volume data will be considered incomplete and will not be accepted.*

#### 2.1 Please include details of all operations using palm oil, owned and/or managed by the member and/or all entities that belong to the group.

All our operations are palm oil, palm kernel oil and palm kernel expeller. We also generate electrical energy from biomass (fiber and palm oil mill effluents) that we use in our mill and market it to an electrical distribution company.

##### 2.1.1 In which countries does your company sell goods with palm oil and palm oil products?

Peru

##### 2.2 Total volume of all palm oil and palm oil products sourced in the year:

Description	Tonnes

-

---

**3.6 How does your company proactively promote RSPO and RSPO-certified sustainable palm oil and oil palm products to your customers?**

During these years we have been working on the socialization of RSPO certification as an opportunity to demonstrate that the palm oil industry is an economically viable and environmentally friendly option. RSPO certification has been shown to open doors to the most demanding international markets seeking commitments to economic, social, and environmental sustainability. We are actively working with our clients in Peru, seeking financial support to increase our efforts and obtain certified sustainable palm oil in the medium term.

---

#### 4. Actions For Next Reporting Period

##### 4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

- Providing technical support to independent smallholders to implement the RSPO Independent Smallholder Standard - Implementing training programs for company workers and relevant stakeholders that include social and environmental issues relevant to the RSPO. - Participating in the meetings called by JUNPALMA and by the supply chain companies in Peru, that promote the implementation and certification processes of the RSPO Supply Chain Certification Standard

## 5. Shared Responsibility

*The Board of Governors of the Roundtable on Sustainable Palm Oil (RSPO) approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to <https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules> or email the ACOP team at [acop@rspo.org](mailto:acop@rspo.org)*

## 6. Challenges

### 6.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others

Others

The main obstacles to the production and promotion of CSPO are: - In Peru, there is no national interpretation of the RSPO principles and criteria and there is no working group to lead this process. - The company is supplied by plantations of small palm producers, which have low productivity and generate low incomes. - There are no companies or groups of small producers in Peru with RSPO Certification that can share the experience of a successful implementation process. - In Peru, there are few people trained in RSPO. The company has made multiple efforts to mitigate these obstacles, highlighting: - During 2018 and 2019 the company's employees have received training in sustainable production of oil palm and carried out technical visits to countries (Costa Rica, Colombia, Guatemala, Honduras, Ecuador, Mexico) that have certified companies to improve their skills, and knowledge of the RSPO Principles and Criteria. - The company has promoted and financed training for palm producers in order to learn about the benefits of RSPO certification and the improvement of their skills. - The company has participated in meetings called by JUNPALMA to explain our implementation process. - The company has worked in 2019 with a group of smallholders independent to start a certification process.

### 6.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
