3. TimeBound Plan

3.1 Which year did your company achieve/obtain (or expects to achieve/obtain) the RSPO supply chain certification or RSPO trader/distributor licence?

2013

3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?

2013

3.2.1 If the previous target year for PT.3.2 has not been met, please explain why.

-

3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.

2013

3.3.1 If the previous target year for PT.3.3 has not been met, please explain why.

-

3.4 Which year did your company begin (or expects to begin) sourcing only 100% RSPO-certified palm oil and oil palm products.

-

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member sells goods with palm oil or palm oil products, please explain why

Olenex is sourcing more RSPO-certified oil palm products than currently purchased by its customers. This is visible in a growing stock of MB rights per location. This shows that our sales is completely depending on our customers. We have always stated that as soon as customers demand only 100% RSPO-certified oil palm products in physical supply chains, we will deliver it. As long as our customers 1) use B&C credits (and therefore buy conventional from us); or 2) demand other certification schemes (like ISCC) Olenex will not be able to source 100% RSPO.

3.6 How does your company proactively promote RSPO and RSPO-certified sustainable palm oil and oil palm products to your customers?

Olenex actively promotes RSPO and RSPO-certified palm oil products in various ways: 1) In direct conversations with customers 2) At events attended by customers and other stakeholders (NGOs, media, politicians, the general public) 3) Through its weekly oil market report to its customers 4) By encouraging customers to support the training of smallholder farmers in Latin America to become RSPO certified, see MARIPOSA: <http://www olenex.com/Mariposa>

4. Actions For Next Reporting Period

4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

Production: With the support of customers contributing to MARIPOSA, Olenex will execute the WISSE program. WISSE aims to train 1800 smallholder farmers in Latin America with 900 of them to become RSPO and/or ISCC certified. For more information, see: <http://www.olenex.com/Mariposa> Consumption: 1) Olenex will support the RSPO's decision on Shared Responsibility, driving the uptake of certified sustainable palm oil products among end product manufacturers. 2) Olenex will continue to promote RSPO certified palm oil products among its customers in personal conversations and at events. 3) Olenex engages directly with stakeholders to inform them about the RSPO and the environmental and social benefits of RSPO certified products.

5. Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil (RSPO) approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to <https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules> or email the ACOP team at acop@rspo.org
