- No challenges faced
- Others

Others

Sustainability is a journey where partnership and support from stakeholders along the supply chain are key. We believe suspension of purchase of palm oil from the supply chain is not an effective measure to transform the industry, rather we encourage to work together and deliberate on solutions through the sustainable landscape program or the jurisdiction approach. We have initiated conservation of orangutans in Pulau Salat that involves local communities, and hope other stakeholders will join to scale up the program and contribute to tangible impacts to the landscape. RSPO can play prominent role to realize this approach in Indonesia

9.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others

Others

Our company is keen to play an active role in realizing the sustainable landscape program through engagement and partnership with multistakeholders in two districts where we operate, i.e Kotawaringin Barat and Lamandau. We believe this approach will increase the awareness and production of CSPO, thus help transform the market. The support from stakeholders along the supply chain including buyers, financial institutions and NGOs are key to the success of this program

9.3 If your company has any other publicly-available reports or information regarding its palm oil-related policies and activities, please provide the links here
