Because the majority of our supply base comes from small vendors that do not have sufficient resources for implementation, we hope that with the new standard of independent small vendors we can move forward on schedule. For the year 2020-2021, it is planned to certify the first group of 40 small producers with the standard of small independent suppliers. Porque nuestra base de suministro proviene en su mayoría de pequeños proveedores independientes que en muchos casos no poseen los recursos suficientes para implementar la norma, esperamos que con el nuevo estándar de pequeños proveedores independientes podamos lograr el objetivo en el tiempo planteado. en el año 2020-2021 se tiene estipulado la certificación de un primer grupo de 40 proveedores a certificar con el nuevo estándar de pequeños proveedores independientes.
