5. Actions for Next Reporting Period

5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

SC Johnson is focusing efforts to establish a new baseline for palm oil and palm oil derivatives. This new baseline will include recent acquisitions and is inclusive of all business units under the SC Johnson corporate structure. In addition to the new baseline, we are planning to update our policy, develop a new five year strategy and create glidepaths for the five year targets that are created To enable the goals we set, we will continue to work with our suppliers, stakeholders and partners to achieve this goal. The commitments below will guide our business as we move along this path. SC Johnson uses relatively small amounts of palm oil, palm kernel expeller or derivatives, but we recognize the impact that non-sustainable palm oil production has on the planet and our responsibility to future generations. As a result, we have placed non-sustainable palm oil on our restricted-use-material list. Restricted use materials cannot be used in our products or can only be used with approval by senior management with agreed upon exit dates. To achieve these goals, SC Johnson: - Requires suppliers to sign our Code of Conduct - Engages suppliers in discussions and review of their palm oil, palm kernel expeller or derivatives production and sourcing practices. - Will suspend or eliminate palm oil purchases from any supplier that it is intentionally contributing to deforestation or the negative environmental or social issues or impacts created by the production of palm oil. - Continually reviews and revises policies and practices to increase supply chain sustainability.

6. Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil (RSPO) approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared

Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules or email the ACOP team at acop@rspo.org
