1. Operational Profile

1.1 What are the main activities of your organisation?

Our expertise is built on the development, design and manufacture of bearings, seals and lubrication systems. And we also provide machine health assessment, reliability engineering and remanufacturing services.

1.2 What activities has your organisation undertaken to promote sustainable palm oil, the RSPO and/or RSPO members in the reporting period?

We promote palm oil focus quality bearings and grease products to reduce the contamination and focus on performance and reduce wastage so palm oil products can be produced with sustainable practices. We also promote digitization of palm oil mills maintenance practices so that efficient and effective maintenance practices can sustain all activities in production of palm oil products.

1.3 What percentage of your organisation's overall activities focus on palm oil?

30.0%

1.4 Did members of your organisation participate in RSPO working groups and/or taskforces in the reporting period?

No

1.5 Does your organisation have any past or on-going collaborations with public or private sector palm oil industry players to support them in their efforts to increase the production or consumption of certified sustainable palm oil (CSPO)?

No

1.6 How is your organisation's work on palm oil funded?

Our activity to work on palm oil is funded by allocation from our sales organizations.

2. Actions for Next Reporting Period

2.1 Please outline activities that your organisation will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

1. Actively engage refinery & palm oil millers (with CSPO) to digitize their maintenance and production processes, especially in Operator Driven Reliability Program. Target is to reach out to all major palm oil producers.
