## 7. Support for Oil Palm Smallholders

### 7.1 How is your company supporting Independent Smallholder groups?

- Sourcing of physical FFB
- Financial support
- Operations support
- Training support
- Community development
- Not supporting Independent Smallholder groups
- Others

Others

The Univanich-Plaipraya Community Enterprise Group has been supported by Univanich Palm Oil PCL since 2011. The company has provided an office building, support staff to the group and incentives to the 242 members having 1,323 ha planted area.

## 8. Actions For Next Reporting Period

### 8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts.

2 mills (CVP and Pabon) will be certified by 2023, if RSPO adopts a more sensible approach to certification of independent smallholders who supply 100% of the fruit processed by these factories.

---

### 8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain.

Extension and advisory services provided to assist independent smallholders to become RSPO certified.

---

## 9. Challenges

### 9.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others

Others

(1) Propaganda against Mass Balance and Book & Claim trading of CSPO, mounted by large plantation companies and by large corporate manufacturers who emphasise the essential importance of complete traceability, is damaging to sustainable small producers and small farmers attempting to sell their certified mass balance palm oil in international markets. (2) Thailand's independent smallholders are converting their farms from other agricultural uses (eg. from coconuts, rubber etc.). There is no clearing of forest land to plant oil palms in Thailand, and yet the cost and bureaucratic difficulty of achieving RSPO certification remains a major obstacle for these small independent growers. (3) With 90% of the company's FFB produced by independent smallholders, and with such limited market incentives, smallholder certification is a costly challenge. Our company has assisted 242 independent smallholders to become RSPO certified.

### 9.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others

Others

Many media releases and conference presentations from our company highlighting importance of sustainability. About 40 groups of farmers, students and Govt officials visit the company's Oil Palm Research Center each year where RSPO and the importance of sustainability is explained. Participation in the RSPO Board of Governors and RSPO sponsored events throughout the year. Univanich hosted a field visit for the RSPO media team, following the RT17 in Bangkok, Thailand.
